ABOUT THE PRESENTERS

DR MITCHELL INNES

BSC (Biomedsci) BDSC (HONS) QLD D Clin Dent (PROS) Adel Prosthodontist

Following on from many successful years in general dentistry in both public and private practice, Mitch completed a D Clin Dent (Prosthodontics) at the University of Adelaide. His extensive research into CAD/CAM material analysis and degradation behaviours has attracted national and international interest.

What can Mitch do for you? Mitch's long-standing passion for providing his patients with optimal restorative outcomes has also seen him involved in many years of providing professional development for fellow dentists and colleagues, undergraduates and dental practice owners. Mitch focuses on "telling it" how it is and "showing it" the way it is! This has led to the provision of relevant, well researched, professional development which is enjoyable, exciting and enables attendees to immediately implement learnings into their own clinical practice.

DR TRENT LINCOLN

MBBS (Hon) BDS FRACDS (OMS) Oral and Maxillofacial Surgeon

Dr Trent Lincoln is a Sunshine Coast based Oral & Maxillofacial Surgeon who completed his training throughout Queensland and the United States. Dr Lincoln has developed a keen interest in oral and facial implantology along with associated bone and soft tissue augmentation techniques.

Dr Lincoln was the first surgeon in Queensland to place the novel Osseoframe, a custom designed and made "dental implant" for the rehabilitation of maxillary and mandibular defects which cannot be treated with conventional intra-osseous implants.

DR ARASH OVEISSIAN

DDS(HONS) DCLinDent (PROS) Prosthodontist

Arash has a passion for not only sharing his extensive experience in prosthodontics but also for making dentistry more enjoyable and successful.

A highly respected specialist with multiple publications, Arash completed his prosthodontics training at the University of Sydney, obtaining the highest mark ever given for the final exam. His attention to detail, stemming from his experience as a sculptor, enhances his ability to create dental works of art! Dr Oveissian is excited to help you improve your expertise in dental ceramics and deliver your patient optimal and aesthetic clinical outcomes.

PLAN LIKE A PROSTHODONTIST

2 DAY INTENSIVE LECTURE SERIES

AESTHETIC PLANNING

Patients are becoming more conscious of their smile aesthetics and as a result are seeking dental procedures to fulfil their desires of a pleasing smile. We as dentists must understand what makes up an aesthetic smile, how to diagnose unpleasing aesthetic parameters, and how to treatment plan the patient case for a successful improvement in the smile. The lecture series will break down the complexities of smile aesthetics and give those who attend a formula for success when considering, planning and treating patients with aesthetic concerns. Cases will be discussed from diagnosis to completion which will give an opportunity for participants to work up cases and see the possibilities various dental treatments have for completing and developing a desirable smile.

MASTERING OCCLUSION

Dental occlusion is a cornerstone of daily practice and an area in which clinicians must be well versed. This course is a "to the point" lecture series on the occlusion related topics pertinent to daily practice. It is designed to

equip the astute clinician with up to date knowledge of both fundamental and advanced occlusal concepts. A framework will be presented which is easy to follow and employ in daily practice when dental occlusion is a consideration in patient management. Occlusion can be a "heavy" topic however this course is designed to "lighten" it up and ensure you get the most out of it! The day will end with hands-on exercises in TMJ assessment as well as positioning exercises for centric relation, as well as "bite" registration techniques.

Presenters:

Dr Mitch Innes, Dr Arash Oveissian

ONLINE LECTURE SERIES

DATES

5th - 6th
February 2021

FEES

FULL COURSE FEE
\$2,100 + GST*

PAY ADVANCE INTEREST & FEE FREE PAYMENT PLANS available for this course starting from **\$48.13 PER WEEK.**

- Flexibility to choose to pay over 6, 12 or 18 months
- Set up instalments to suit your schedule

DAY 1 - AESTHETIC PLANNING

- Smile design principles
- Aesthetics in nature
- Principles of tooth proportions
- Ideal tooth display
- "Gummy smile" and gingival display
- Relationship of occlusion and aesthetics
- Treatment planning an aesthetic smile

DAY 2 - MASTERING OCCLUSION

- Fundamentals of occlusion
- Occlusion and oral disease
- Occlusion in the natural dentition
- Occlusion in the restored dentition
- Occlusion in Implant prosthetics
- Occlusion In treatment planning
- Where we are at in 2021

FULL ARCH REHABILITATION

5 DAY HANDS-ON PATIENT PROGRAM

Patients with full mouth complex issues and tooth wear are common in day to day practice. These cases can be daunting and take a lot of planning and precise execution of treatment. This course is designed to take a look at these large cases from an overall diagnosis point of view. Attendees will meet with their patient (supplied by us) and then work to obtain all records needed to plan their case. Mounting and waxing up your case will help you understand your case. Attendees will perform a full arch of ceramic restorations or full mouth of direct composite depending on what you would prefer. We will source your patient based on your desired

techniques. Full cementation and isolation techniques will be used to create a final, successful outcome for your patient.

Presenters:

Dr Mitch Innes, Dr Arash Oveissian

DUE TO BEING ONE OF OUR MOST POPULAR COURSES, WE HAVE SCHEDULED TWO COURSES FOR 2021.

LOCATION

DENTAL SMILE DESIGNERS LABORATORY & SUNSHINE COAST PROSTHODONTICS - LOCATED ON THE SUNSHINE COAST QLD.

LECTURES & PREPARATION
7th - 9th Oct
 LECTURES & CEMENTATION
29th-30th Oct

FEES

FULL COURSE FEE
\$15,500 +GST*

PAY ADVANCE INTEREST & FEE FREE PAYMENT PLANS available for this course starting from **\$343.75 PER FORTNIGHT.**

- Flexibility to choose to pay over 6, 12 or 18 months
- Set up instalments to suit your schedule

DAY 1	DAY 2	DAY 3	DAY 4	DAY 5
Lectures covering complex case planning, diagnosis, OVD, treatment options, procedures and laboratory. Attendees will then meet their allocated patient for assessments and record taking.	Records will be mounted and diagnostic wax ups completed. Wax up try in process and final diagnostics will complete day 2.	Arch preparation under full rubber dam isolation, impression taking and the fabrication and placement of temporary. Restorations will then be sent to the Dental Smile Designers Laboratory for fabrication. Attendees will attend a second 2-day session for cementation.	1/2 day lecture on cementation and full arch cementation techniques. Assessment of restorations on models and test of occlusion before the start of cementation. 2 attendees will complete their restorations on this afternoon with further lecturing during this process.	Final attendees will complete their restorations. The day will finish with a recap lecture and an opportunity to present cases to Dr Innes on any current full arch cases you have within your own private practice.

Course limited to 4 attendees

SURGICAL EXTRACTIONS & SOCKET PRESERVATION

2 DAY HANDS-ON PATIENT PROGRAM

Participants will spend a comprehensive two days learning case selection for extractions, when socket preservation is necessary, material choices and up to date protocols. We will cover techniques for performing atraumatic extractions and surgical primary suture closure as well as immediate tooth replacement options before participants each get the opportunity to perform multiple atraumatic, surgical extractions and socket preservation on patients provided by us.

\$3,100 + GST*
(if paid after before 31.03.21)

PAY ADVANCE INTEREST & FEE FREE PAYMENT PLANS available for this course starting from **\$66.46 PER WEEK.**

- Flexibility to choose to pay over 6, 12 or 18 months
- Set up instalments to suit your schedule

DAY 1 - IMPLANT PLANNING LECTURE

- Select appropriate patient cases for single implant restorations
- Understand indications and contraindications for implant therapy
- Complete an implant treatment plan including stages, timing, protocols and material choices
- Know implant components and armamentarium
- Complete accurate implant impressions - conventionally and digitally
- Successfully fit single implant crowns
- Maintain implant restorations

DAY 2 - ADVANCED HANDS ON IMPLANT PROSTHETICS

- Single implant crowns- prosthetics only
- Open tray, closed tray and digital impressions
- Custom impression cop-ings
- Chairside and laboratory Provisionals
- Custom abutment design
- Restorations- including "direct to fixture" cement retained and "x-pin" or transverse screw

DAY 3 - HANDS-ON PATIENT PROGRAM (patient provided by us)

- Put into practice everything you have learnt on days one and two on a patient (provided by us). Take successful impressions, isolate, try in and successfully fit a screw retained crown on your chosen patient.

Two-day course limited to 16 attendees; One day Hands-on patient day limited to 8 attendees

IMPLANT PLACEMENT - BASIC

5 DAY HANDS-ON PATIENT PROGRAM

Introduction to implant surgery- single, multiple and overdenture planning and placement.

This five-day intensive program is designed for dentists wanting to integrate dental implant surgery into their day to day practice. This program will begin with lectures on case selection and treatment planning. We will cover how to read CT scans, as well as plan and fabricate surgical guides. You will be introduced to your patient where you will do a clinical examination and a digital scan for guide fabrication. Instrument selection, equipment and sterile work protocols will be discussed and implemented to set up your surgery ready for your implant surgery placement. You will perform a minimum of six, 1st stage implant placements on your chosen patients under the direct guidance of one of our specialists. Complication management will also be discussed. You will receive follow up communication and records of your patient at ROS and second stage surgery/integration testing so you can follow your patient's implant integration and success.

Presenter:
Dr Mitch Innes

WHAT'S INCLUDED?

- Limited to 4 attendees
- Patients provided.
- Lectures including case selection and work up
- Hands-On Sessions including Fabrication of surgical guides and practice placement on implant models
- All implants, equipment, instruments and surgical kits will be provided for your surgeries
- You will receive an implant starter kit including 10 x Neoss implants with healing abutments and cover screws, Full Neoss surgery kit for straight and tapered implants, 2x VP Dental full surgical drape kits. Total value \$7,200.00
- Special discount rates for NSK Surgical Units and Motors
- 50% off voucher for your first surgical implant guide with Dental Smile Designers Laboratory
- 50% off voucher for your first implant crown with Dental Smile Designers Laboratory
- 12 Months of case guidance with Dr Innes
- Morning/afternoon tea and lunch daily

MASTER CERAMIC CROWNS

3 DAY HANDS-ON PATIENT PROGRAM

Master your ceramic crown skills with this intensive 3 day course. Lectures will cover up to date literature in dental ceramics, materials and cementation. Learn new techniques on models that will help reduce prep time, perfect margins and successfully provisionalise teeth. Implement your new knowledge by performing two single ceramic crowns on a patient, provided by us. Experience the lab work flow, and watch your impressions and models take shape as they are fabricated into your ceramic crowns. Full cementation protocol, under rubber dam will take place on the last day finalizing your restorations.

IMPLANT PLACEMENT – ADVANCED

5 DAY HANDS-ON PATIENT PROGRAM

Advanced implant surgery- Complex cases with sinus augmentation (Transcrestal and Lateral window), simultaneous bone augmentation, and “all-on-4 style” implant placement.

This five-day intensive program is designed for dentists already placing dental implants in their day to day practice. This program will focus on advanced cases involving compromised sites, bony deficiencies and sites that require sinus augmentation. You will be introduced to your patients where you will do a clinical examination and digital scan for guide fabrication. Instrument selection, equipment and sterile work protocols will be discussed and implemented to set up your surgery ready for your procedures. You will perform implant placements on your chosen patients with simultaneous sinus augmentation and grafting, or angled/ bone grafting implant techniques. Primary closure suturing techniques will be used to ensure adequate healing. We will cover surgical healing complications and their management. You will receive follow up communication and records of your patient at ROS and second stage surgery/integration testing so you can follow your patient’s implant integration and success. You can customize this course to your needs in terms of procedures you would like to complete.

2021 COURSE PACKAGES

RESTORATIVE COURSE

This course package has been created to suit dentists of all skill levels. We have designed this restorative program to enable dentists to simply follow our program from start to finish for the ultimate CPD experience. All of the courses allow dentists to build their restorative skills in areas that you will use in day to day practice, allowing you to immediately implement what you have learnt on your first day back at your practice. Come on this dental journey and master your skills from single restorations up to full mouth rehabilitations.

COURSES INCLUDED IN PACKAGE:

Plan like a Prosthodontist- Aesthetic planning and Mastering Occlusion + Master Ceramic Crowns + Full Arch Rehabilitation.

FULL PRICE: \$22,600 + GST

PACKAGE PRICE: \$20,500 + GST

SAVING OF \$2,100

Payment Plan options starting at just \$469.79 a fortnight

IMPLANT PROGRAM COURSE

Successfully integrate dental implants into your day to day practice with this ultimate CPD experience. From single implants and surgical skills, up to advanced dental surgery. Follow this program through from start to finish to successfully master implant restorations and surgery. Comfortably develop your skills in case selection, treatment planning and hands on surgical training before moving into implant placement with the guidance of a maxillofacial surgeon and prosthodontist by your side. Come on this dental journey and master your skills from single implant surgery through to advanced procedures such as GBR, sinus augmentation and angled implants in the "all on four" style.

COURSES INCLUDED IN PACKAGE:

Surgical Extractions And Socket Preservation + Single Implant Restoration + Implant Placement- Basic

FULL PRICE: \$28,250 + GST

PACKAGE PRICE: \$26,500 + GST

SAVING OF \$1,750

Payment Plan options starting at just \$607.29 a fortnight

TESTIMONIALS

“ I have been lucky enough to do Dr Innes' restorative implant course. Not only were my eyes opened to a whole next level of dentistry, he explained it all in such a way that I was able to implement the knowledge learnt into my every day practice. Even 18 months after I completed the course Dr Innes still offers mentorship and guidance when needed for our mutual patients. I cannot recommend Dr Innes and his courses highly enough. ”

DR SARAH ROSE (QLD)

“ Dr Mitch Innes is a great presenter, and always explains things with a logical, step-by-step approach. The topics covered are always very relevant to everyday scenarios in general dentistry. Each lecture I've attended has had a hands-on component so you get a chance to put the theory into practice. Dr Arash Oveissian also contributes greatly to each course with plenty of detailed case studies. Both presenters are very approachable and seem to genuinely want you to get the most out of each course. I'm looking forward to doing more of Dr Innes' courses next year. ”

DR BRODIE HILL (QLD)

LOCATION SUNSHINE COAST

All hands-on courses will be held at Dr Innes' specialty practice on the Sunshine Coast, QLD. The practice is located at Suite 10B, 69-79 Attenuata Drive, Mountain Creek. This is approximately 15 minutes from the Sunshine Coast airport. Accommodation is available directly across from the surgery at Breeze on Brightwater. The Aesthetic Planning and Mastering Occlusion lectures will be held as an online lecture series.

REGISTRATION

All registrations and payments can be made through the Dental CPD website. If you are wanting to take advantage of your interest and fee free payment plans you will have the opportunity to choose this option after registration.

“The best investment you can make, is an investment in yourself... The more you learn, the more you'll earn.”

CPD COURSE REGISTRATION TERMS AND CONDITIONS

REGISTRATION AND PAYMENT

Submission of an online registration is regarded as a firm booking and acceptance of these terms and conditions, however the booking will not be confirmed until full payment has been received. Payment in full must be received at time of registration and no later than 1 month before the date that the conference begins. In the event that full payment is not received by then, the delegates reserved place at the conference will be canceled to allow attendees on waiting lists to access a spot. We accept payment by bank transfer, credit card and payment plan.

PRIVACY

The personal information supplied in connection with this registration will be held by Dental CPD as a record of attendees and parties expressing interest. By registering for this conference the parties concerned are agreeing that the conference organisers may use that personal information to contact them by email, direct mail, telephone or fax, in order to supply information relevant to this conference, or about other conferences, events and opportunities that the organisers are planning and feel may be of interest to them. The organisers may also share this information with its partners and event sponsors in order for them to contact the delegates about other products and services which may be of interest to the delegates. If you do not want your details to be used in this way, please contact Dental CPD by letter or email to confirm this.

CANCELLATION

Any delegate wishing to cancel their booking must notify Dental CPD in writing or by email. Cancellation charges will apply as follows: - Up to 10 weeks before the event starts: 20% of the delegate fee plus any bank transfer fee incurred by Dental CPD - Up to 4 weeks before the event starts: 50% of the delegate fee plus any bank transfer fee incurred by Dental CPD - Less than 4 weeks before the event starts: 100% of the delegate fee - Non-arrivals are liable for 100% of the delegate fee.

In the unlikely event of the program being canceled by the organiser, a full refund will be made. Liability will be limited to the amount of the fee paid by the delegate and there will not be any additional liability to Dental CPD, event hosts or any other individual associated with the event organization.

In the event that the conference cannot be held or is postponed due to events beyond the control of the conference organisers (force majeure) or due to events which are not attributable to wrongful intent or gross negligence of the conference organisers, liability will be limited to the amount of the fee paid by the delegate and there will not be any additional liability to Dental CPD, event hosts or any other individual associated with the event organization. Under these circumstances arrangements will be made to hold the conference within a 12 month period. Registered and fully paid registrants will not be refunded if the conference can be held within this period of time. In the event the Dental CPD can not offer new dates for this conference within a 12 month period, all registration monies paid to date will be refunded.

SUBSTITUTIONS

Substitutions may be made at any time. If you wish to substitute a delegate, you must notify Dental CPD in writing or email at the earliest opportunity and at least 24 hours before the event begins.

CHANGES AND POSTPONEMENT

Dental CPD reserves the right to make alterations to the conference program, venue and timings at any time. In the event of it being found necessary, for whatever reason, that the conference is being postponed

or the dates being changed, the organisers shall not be liable for any expenditure, damage or loss incurred by the delegate. If by re-arrangement or postponement the event can take place within a 12 month period, the booking between the delegate and the organisers shall remain in force and will be subject to the cancellation schedule above.

LIABILITY

Views expressed by speakers, sponsors and/or exhibitors are their own. Dental CPD cannot accept liability for any advice given, or views expressed, by any speaker, sponsor and/or exhibitor at the conference or in any material provided to delegates. In addition, Dental CPD shall not be responsible or liable for any direct or indirect loss or damage of any sort incurred as the result of the services or information provided in connection with the event

INSURANCE

It is the responsibility of the delegate to arrange appropriate insurance cover in connection with their attendance at the conference. Dental CPD cannot be held liable for any loss, liability or damage to personal property. For attendees taking part in a Hands-On patient component of the conference, proof of registration and relevant insurances will be required at registration and all up to date/current certificates need to be supplied via post or email no later than 4 weeks before your course attendance

PHOTOS & FILMING

For promotional purposes, photos and video recordings will be taken during the conference. Delegates who do not wish to be filmed or recorded should advise the organisers in writing prior to the event.

WEBSITE & LINKS

The conference and associated Dental CPD websites may link to other websites and networking tools provided for the convenience of the users. The contents of these websites are maintained by their owners, for which Dental CPD takes no responsibility. Neither can responsibility be taken for contents of any website linking to this website.

APRAH REGISTRATION

It is the sole responsibility of the attendee to ensure they have a current APRAH registration and can provide their current registration certificate within 4 weeks of the attending conference. Attendees who have any conditions on their registration whether relating to the course content or not, need to notify organisers at registration. Failure to provide Dental CPD with this information may void your registration or ability to attend all parts of the conference. If an attendee is found to have conditions on their registration that has not been previously discussed and is unable to take part in the course, there will be no refund liability to Dental CPD.

GENERAL

We reserve the right at all time to change, amend, add or remove any of the above terms without prior notice. If one or more of the conditions outlined in these Terms & Conditions should be or become invalid, the remaining conditions will continue to be valid and apply. These Terms & Conditions apply to all participants of this event, including speakers, sponsors and exhibitors.
